React.js Developer, Software Engineer,
Full-Stack JavaScript Developer & UI/UX Developer

Passionate entry-level React.js Developer, Full-Stack JavaScript Developer, UI/UX Developer, and Software Engineer with a detail-oriented approach to building web applications. Proficient at creating dynamic front-end web apps utilizing JavaScript and React, and experienced in working with SQL databases using Express and Node.js. Exceptional written and oral communication skills, and an unrelenting drive to learn, improve, and ensure the satisfaction of teammates and customers alike.

Technologies & Proficiencies

-JavaScript	-HTML	-CSS	-Express	-SQL(SQLite)
-React	-Pug/Jade	-Git/GitHub	-Node.js	-Sequelize (ORM)

Projects

Full-Stack React and REST API Application:
Created a "School Database" full-stack application using a React client, SQLite database, and Express server. Allows authenticated users to administer a school database's list of courses and perform basic CRUD operations.
- JavaScript, React, React Router, Axios, Express, SQLite, Sequelize, Node.js

Employee Directory AJAX Application:
Designed an "Employee Directory" that pulls data from the Random User Generator API and displays contact information for a list of users. Allows the client to dynamically search for a user and generates a modal window to view user details.
- JavaScript, Fetch API, HTML, CSS

React Image Gallery:
Built a React application that allows users to search and view images from the Flickr API. Enables tracking of browser history for easy page navigation and generates 404-like errors.
- React, React Router, JavaScript, Axios

Library Database CRUD Application:
Constructed a SQLite database, utilizing Express, Sequelize, and Pug templating. Allows users to perform CRUD operations from the front-end interface.
- JavaScript, Node.js, Express, SQLite, Sequelize, Pug

Education

Full-Stack JavaScript Techdegree   **Completed: May 2021**
TeamTreeHouse

Bachelor of Arts in Philosophy   **Graduated: May 2019**
Elon University – Elon, NC
Minor: Biology

Work Experience

Whole Foods Market   **October 2019 – August 2020**
Cashier & Cashier's Assistant – Raleigh, NC
- Operated cash register, assisted in inventory management, and performed strict cleaning duties under timely deadlines.
- Communicated with customers and team members to ensure outstanding service and a positive work environment.

Perrotta & Cahn   **May 2017 – September 2017**
Legal Intern – Cartersville, GA
- Researched and compiled information, using legal databases, for lawyers at the firm.
- Edited and assisted in the creation of legal documents/notices/emails according to strict legal guidelines and syntax.
- Consulted with clients, witnesses, and legal professionals to document and relay case details.
